Nick Buettner and his team study the world's Blue Zones, communities whose residents live with optimal health and vitality to a record-setting age. In his talk,

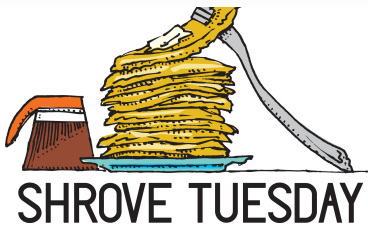

Nick shares the 9 common diet and lifestyle habits – the Power 9® – that keep people healthy past age 100. Nick debunks the most common myths about healthy living and aging well, and offers a science-backed blueprint for the average American to live longer, better. The spring edition of "Fresh Start" has begun! We will start with a potluck dinner at 5:00 pm followed by educational opportunities for adults, youth, and children. This spring, adult participants will have two series of discussions: the first few weeks will be conversations based on the PBS television series "Mr. Rogers' Neighborhood" and the film "A Beautiful Day in the Neighborhood". The discussions will focus on themes such as feelings, kindness, and neighborliness. The second series will be "Bonhoeffer: A Four-Session Study on the Life and Writings of Dietrich Bonhoeffer" by Eric Metaxas. Dietrich Bonhoeffer was a German pastor and theologian who was martyred for his participation in the resistance movement against Hitler and the Third Reich. We hope you will join us for a "fresh start" for your week! Everyone is welcome!
